# Good News from Quaker Hill Farm

Dear Friend:—

Most seed prices are lower. Our guess is that they are at their lowest for the season and are likely to advance. You may save by buying now. Be sure to look for high quality seed at reasonable prices. Your seed dollar will buy more seed value at Quaker Hill Farm because we grow a large part of the seed we sell, avoiding middle man costs as much as possible, and we spend very little on agents or advertising. These savings are passed on to you in higher quality seeds or lower prices or both.

All of our grass, legume and other forage crop seeds are of top quality, of recommended strains, and from approved sources. Our hybrid corn varieties, according to Cornell tests over several years, are the equal of any and better than many, in both yields and standability. With them, you not only produce a high yield but it will be harvestable with the minimum of waste. We have certified seed of the best strains of spring grains for New York and not certified seed of the same grown from Registered or Certified seed. In seed potatoes we offer mostly Foundation stocks which experience has proved definitely produce better than certified and pay well for the extra price.

Practically all of our seeds are ready for you now except the potatoes. Our potatoes will be arriving from the last of March on. It is advisable, however, to place reservation orders for them promptly, indicating when you would like to get them. The supply of size B seed will not begin to meet the demand so you should indicate whether or not size A will be acceptable if size B is not available.

We are located 3 miles north of Honeoye Falls, 14 miles southeast of Rochester, half way between Rush and Mendon, at the intersection of routes 251 and 65. Sale hours are from 8 to 12 and 1 to 5, week days only.

We shall be glad to reserve seeds for you for later shipment or pick up here. Mail attached order form today indicating your wishes.

Yours to help you make and save more, K. C. LIVERMORE.
